PROFESSIONAL SUMMARY

Results-driven ICT Desktop Support Specialist with 3+ years of hands-on experience diagnosing and resolving complex hardware, software, and network issues across multi-user environments. Demonstrated expertise in configuring and maintaining IT infrastructure — including VPN, remote desktop services, and server environments — while keeping 55+ end users productive and secure. Holds a Diploma in ICT (Applications Development, NQF Level 6) backed by six industry certifications from Cisco Networking Academy and Samsung, spanning cybersecurity, networking, Python, data science, AI, and ethical hacking. Passionate about leveraging emerging technologies to drive operational efficiency and deliver world-class technical support. Immediately available for new opportunities.

CORE COMPETENCIES

• Hardware Diagnostics & Repair	• VPN Configuration & RDP	• Python Programming
• OS Installation & Configuration	• Windows Server Administration	• Cybersecurity & Ethical Hacking
• Network Troubleshooting	• Microsoft 365 & Productivity Tools	• AI & Machine Learning Fundamentals
• Desktop Support	• Pastel Server Administration	• Data Science Fundamentals

TECHNICAL SKILLS

Desktop Support	Hardware diagnostics & repair, OS installation & configuration, driver management, peripheral setup, first-call resolution
Networking	VPN configuration, Remote Desktop (RDP), network connectivity troubleshooting, network security
Systems & Servers	Pastel Server administration, Windows Server environments, system security & hardening, software deployment
Software & Tools	Microsoft 365 (Word, Excel, Outlook, Teams), remote support tools, ticketing systems
Programming	Python (Cisco Essentials I + Samsung AI/ML programme); web technologies (HTML, CSS, JavaScript)
Cybersecurity	Ethical hacking methodology, cybersecurity principles, threat awareness, data protection & compliance
Data & AI	Data science fundamentals, AI & Machine Learning concepts (Samsung programme)

Soft Skills

End-user training, clear technical communication, high-volume workload management, fast learner, smart escalation

PROFESSIONAL EXPERIENCE

IT Technical Support Specialist

Apr 2023 – Apr 2026

Siyakholwa Development Foundation · East London

- Provided comprehensive end-to-end technical support for 55+ users, consistently achieving first-call resolution on hardware and software issues to maintain maximum system uptime.
- Managed and maintained full IT infrastructure — servers, workstations, switches, and peripherals — ensuring system security, stability, and seamless network connectivity.
- Configured, administered, and troubleshooted VPN connections, remote desktop services (RDP), and the Pastel Server accounting environment for distributed staff.
- Deployed, updated, and troubleshooted software applications across the organisation, minimising downtime and enforcing software licensing compliance.
- Designed and delivered end-user training programmes on IT best practices, Microsoft 365 productivity tools, and cybersecurity awareness — measurably improving team efficiency.
- Provided off-site technical support to community members and external stakeholders, resolving technical and administrative queries with professionalism.
- Administered, scanned, and digitally archived documentation to meet storage and regulatory compliance requirements.
- Maintained accurate service records, authored incident reports, and escalated complex issues to senior engineers when required.

ICT Academic Support Facilitator

Mar 2024 – Sep 2024

Walter Sisulu University · East London

- Facilitated structured ICT support sessions, guiding students through technical coursework, software tools, and system-related challenges.
- Captured, verified, and managed student data across multiple academic platforms, ensuring accuracy and compliance with institutional requirements.
- Maintained detailed records and contributed to reporting and performance tracking across high-volume academic cycles.
- Honed communication and problem-solving skills in a demanding, deadline-driven environment supporting both students and academic staff.

PROJECTS & PORTFOLIO

Digital Portfolio Website <https://vuyolwethundolela.github.io/>

Personal developer portfolio showcasing technical skills, certifications, and project work.

NaniTeck Pty Ltd Website <https://nanitechsolve.github.io/nanitech/>

Business website developed and deployed for NaniTeck Pty Ltd, demonstrating front-end development and client-facing web delivery.

PaceIQ — Running App <https://pace-iq-henna.vercel.app/>

Full-stack web application built for runners to track and optimise pace. Currently in active development. Deployed on Vercel.

ApplyFlow AI — Job Application Assistant <https://applyflow-ai-taupe.vercel.app>

AI-powered web application that helps job seekers score their CVs, generate optimised CVs, and improve application success rates. Currently in active development. Deployed on Vercel.

SA Unemployment Dashboard <https://sa-unemployment.streamlit.app/>

Interactive data science web application visualising South Africa's unemployment trends from 2020 to 2024 using real Stats SA data. Features a machine learning model (Linear Regression) that predicts future unemployment rates, dynamic charts, and a user-friendly dashboard accessible to both technical and non-technical audiences. Built with Python, Streamlit, pandas, matplotlib, and scikit-learn. Deployed on Streamlit Cloud.

KEY ACHIEVEMENTS

- Sole IT support resource for 55+ users at Siyakholwa Development Foundation, maintaining high system availability over a 3-year tenure.
- Successfully configured and managed remote desktop and VPN infrastructure, enabling seamless hybrid work capabilities.
- Completed 6 Cisco Networking Academy certifications alongside a Samsung AI/ML programme, demonstrating commitment to continuous technical development.
- Designed and delivered staff IT training initiatives that significantly improved productivity and security awareness organisation-wide.
- Built and deployed multiple live web applications (PaceIQ, ApplyFlow AI) using modern frameworks — demonstrating initiative as a self-driven software developer.

EDUCATION

Diploma: Information & Communication Technology (Applications Development) 2021 – 2023

Walter Sisulu University

NQF Level 6 | Focus: Software Development, Networking, Database Systems, Systems Analysis

Media Consultant Certification

2013 – 2015

Boston City Campus

National Senior Certificate (Matric)

2012

Barkly East High School

CERTIFICATIONS & INDUSTRY TRAINING

- **Python, Artificial Intelligence & Machine Learning** — Samsung Innovative Campus Programme (2023–2024)
- **Introduction to Cybersecurity** — Cisco Networking Academy
- **Network Support & Security** — Cisco Networking Academy
- **Python Essentials I** — Cisco Networking Academy
- **Introduction to Data Science** — Cisco Networking Academy
- **Ethical Hacking** — Cisco Networking Academy
